

# About Us

## Cobb & Douglas Public Health Strategy Map

### Mission

Cobb & Douglas Public Health, with our partners, promotes and protects the health and safety of the residents of Cobb and Douglas counties.

### Vision

By 2014, Cobb & Douglas Public Health will be an acknowledged leader among health departments in the southeastern United States.

## COBB HEALTH FUTURES FOUNDATION, INC.

### WHY SUPPORT COBB PUBLIC HEALTH?

Today, Cobb Public Health operates over 35 different programs, many of them receiving little or no public funding. Our clients—especially the children—are the ones who suffer most as we continue to face cuts to some of our most important services. Below are just a few of our programs in need of private support:

**Babies Born Healthy:** Saves the lives of women and infants by providing under- and uninsured pregnant women with early prenatal care to help reduce infant mortality.

**Children 1<sup>st</sup>:** Improves children's well-being and chances for success in school by identifying their medical and developmental issues and linking them to the necessary services.

**Adolescent Health & Youth Development:** Helps keep teens out of trouble by providing health and youth development opportunities designed to reduce risky behaviors.

**Injury Prevention/Safe Kids:** Reduces children's accidents by providing car seat inspections along with education on poison prevention, pedestrian and bicycle safety, and home and water safety.

**Breast & Cervical Cancer Prevention:** Saves women's lives by providing access to breast and cervical cancer screenings and diagnostics for low-income, uninsured, and underserved women.

### HOW TO SUPPORT THE PROGRAMS OF COBB PUBLIC HEALTH

Contributions can be accepted directly by Cobb Public Health or through the Cobb Health Futures Foundation, our 501(c)3 development affiliate that allows individuals, corporations, and foundations to contribute tax deductible gifts to support our public health programming. For more information, contact Jan Heidrich-Rice in our Development Department at (770) 514-2325 or jrhrice@dhr.state.ga.us.

### ABOUT OUR FOUNDATION

The **Cobb Health Futures Foundation, Inc.** is a 501(c)3 philanthropic arm of public health in the Cobb County. Incorporated in 1994, the foundation's purpose is to support the mission it shares with Cobb Public Health, which is, with our partners, to promote and protect the health and safety of the residents of our county—the mission to which our county board of health has been committed since 1920.

## COBB & DOUGLAS PUBLIC HEALTH PROGRAMS AND SERVICES
