Updated regulations now require department approved pool operator training!

[Effective immediately for new pool facilities and within 2 years for existing pool facilities.]

The Certified Pool/Spa Operator Course (CPO) course will satisfy this requirement.

CPO Course Description: A nationally recognized course that gives participants a better understanding of the operator's role in pool care and management by covering topics such as pool and spa chemistry, testing, treatment, filtration, maintenance, chemical feeding equipment, facility safety, and government requirements. Students must pass an open book written examination to obtain CPO certification. The CPO certification is valid for five years. The instructors are certified by the National Swimming Pool Foundation.
