

## ALERT: DRAIN COVER RECALL

### **Public Service Announcement**

The Consumer Product Safety Commission (CPSC) has recalled specific drain covers made by eight (8) manufacturers. The recall is due to the improper rating of the covers by a third party organization. It is a concern with:

- **kiddie pools**
- **wading pools**
- **in-ground spas**

Although this is not a concern with larger pools with multiple drains, this would be a concern with larger pools with a single main drain unless it has an **\*unblockable** drain cover.

The following link will give you more information:

[www.cpsc.gov/cpsc/pub/prerel/prhtml11/11230.html](http://www.cpsc.gov/cpsc/pub/prerel/prhtml11/11230.html)

**At this time, the VGB Act is not enforced by Cobb & Douglas Public Health. This information is provided as a public service only.**

\*An unblockable drain cover is generally going to be larger than 18 inches x 23 inches and compliant with the ANSI A112.19.8-2007 standard.
